## PERSONAL PROJECTS

### RealTime-Weather (03/2025 - 04/2025)

- Built a responsive web app using JavaScript, HTML, and CSS to display real-time weather data from an API. Features include current conditions and location-based forecasts.

### Expense-tracker-React (08/2024 - 09/2024)

- Built a React app to track expenses with real-time updates and a responsive UI. Includes a chart to visualize spending patterns.

### Shopping-App (03/2024 - 04/2024)

- Built a responsive Angular app with Firebase for real-time data and authentication, managing shopping lists and recipes.

### Interactive Resume (01/2023 - 02/2023)

- Created a responsive, interactive resume with dark mode and other dynamic features for an enhanced user experience.

## ACHIEVEMENTS

### Hackathon - Hack AI (04/2025 - 04/2025)

Contributed to a company hackathon by leveraging AI to solve front-end UI challenges, and reducing UI development time by 40%
